

# My Sunnah Wheel.

## What you need:

- Printouts of the 3 wheels
- Blank Card
- Scissors
- Colouring pencils
- Split pin
- Glue

## Method:

- Print out the 3 wheels on card.
- If you printed it out on paper then glue the paper onto the card. This will make your Sunnah wheel stronger.
- Colour in your wheels. Colour in the images also.
- Cut out all 3 wheels.  
Front wheel: Don't forget to cut out the blank triangle.  
Back wheel: Be careful not to cut out the tabs on the back wheel.
- Make a hole in the centre of all 3 wheels.
- Fold in the tabs on the third wheel. Fold towards the blank side
- Place the back-wheel face down, (blank side up with the tabs visible)
- Place the middle wheel (with the Sunnah written) on top of the back wheel.  
**Note:** Make sure the tabs are folded over the middle wheel and not under.
- Finally place the front wheel on top.
- Secure the wheels together with the split pin through the centre.
- Making sure the tabs are folded over the centre wheel, glue these tabs to the front wheel. **Important!** The middle wheel should be able to spin freely. The front and back wheel will be glued together with the tabs.
- Your Sunnah wheel is now ready! Look at it throughout the day to remind you of the sunnats you should be doing.

the circle

Did I use a miswaak today?

Did I read my Dua for waking up?

Did I enter the toilet with my left foot?

Did I eat with my right hand?

Did I smile when I met others?

Did I wear my clothes and shoes starting from my right side?

Did I read the Du'a after sneezing?

Did I read the Dua for leaving the house?
