Beginning of month

Middle of month

End of month

The Islamic Calendar is based on the phases of the moon. It takes around 29-30 days for the moon to complete one full cycle. Therefore an Islamic month will either be 29 or 30 days based on 1) when the moon completes its cycle 2) when the moon is sighted. As Muslims to be familiar with the Islamic calendar and know what month and which date we are on so that we do not miss any important dates and events!
